

# SUPRApak M Series Filter Housings

SUPRApak™ Filtration

For Medium Batch Depth Filtration

# **SUPRApak Series**

# SUPRApak M Series-WA Filter Housings **Technical Information**

SUPRApak M Series-WA filter housings are designed for use with SUPRApak M filter modules, to handle medium batch sizes in wine, distilled spirits, sweeteners, gelatin, enzymes, and other food and beverage applications.

Features Benefits		
Closed filtration system	<ul> <li>Increased process safety and product quality; no drip losses; minimum operator exposure to process fluids</li> </ul>	
Compact design with high filtration area	High throughput filtration for medium batch production, resulting in low investment cost	
Drainable, low hold-up volume assembly	Higher product yield; minimized cleaning costs	
High quality internal surface finish, sanitary and crevice-free design	Enhanced cleanability	
Quick release V-band housing closure	Ease of handling during filter changeout and cleaning	
Modular construction available	Enables flexibility and matching of production volumes to equipment capacity	
External tensioning device with preset torque limit	Provides secure operation without bypass	
Simple, quick installation and servicing	Reduced labor and maintenance costs; reduced process downtime	
Filter module lifting device available on request	Eases filter installation and removal	
ATEX (94/9/EC) Group II, Category 2 documentation — by special order	Suitable for use in potentially explosive environments	

### **Description**

SUPRApak M filtration units provide a closed system approach to high capacity depth filtration, maximizing product protection and minimizing product losses. They are a cost-effective alternative to traditional sheet filtration and lenticular module filtration.

SUPRApak M Series-WA units hold from one to four SUPRApak M modules, representing up to approximately 11 m² (116.6 ft²) of filtration area in a very compact and low hold-up volume design. They areavailable either in single dome or modular design.

## **Specifications**

Minimum / Maximum Design Pressure 1,2		-1 to 8 barg (-14.5 to 116 psig)	
Minimum / Maximum Design Temperature <sup>1</sup>		-10 to 150 °C (14 to 302 °F)	
Materials of Co	nstruction	Wetted parts 1.4404 (AISI 316L stainless steel)	
Sealing Materials <sup>3</sup>		EPDM elastomer	
Internal Surface Flnish		≤ 0.8 micron Ra (≤ 32 Ra microinches), electropolished	
Internal Welds		Dressed and blended to provide uniform ripple- and crevice-free surface to $\leq$ 0.8 micron Ra ( $\leq$ 32 Ra microinches), electropolished	
Connections	Inlet/Outlet	DN 40 (DIN 11851) 1.5 inch sanitary clamp coupling (ISO 2852)	
	Filtrate Vent (optional)	DN 6 (8 mm / 0.31 inch) hose tail	
Filter Module Compatibility <sup>4</sup>		SUPRApak M series modules	

- <sup>1</sup> Maximum design pressure and temperature ratings are vessel ratings only. Safe operation will also depend on filter module and housing gasket use. EPDM assembly seals restrict continuous operating temperature to 130 °C (266 °F). For details on filter module temperature limitations, please refer to SUPRApak module literature.
- <sup>2</sup> Design satisfies EC Pressure Equipment Directive (PED) 97/23/EC (Fluid Group 2, Category II, Module A1). Pressure rating is for liquid or gas. The PED category and fluid group classification indicates suitability of housing use on distilled spirits less than 70% by weight absolute alcohol. For such applications, the maximum allowable temperature must be below the flash point. For 70% by weight absolute alcohol the flashpoint is 21 °C (69.8 °F).
- <sup>3</sup> Seal materials meet requirements for food contact use as detailed in FDA 21 CFR Section 177.2600, and EC Regulation 1935/2004, including BfR XV and XXI. Please contact Pall for additional options.
- $^{\rm 4}$  Refer to Pall Food and Beverage SUPRApak module literature for additional guidelines on use.

# SUPRApak M Series-WA Filter Housings **Technical Information**

SUPRApak M Series-WA housings are supplied without accessories.

## Nominal Dimensions in mm (inches) -

for specific dimensions, please contact Pall<sup>5</sup>

	M-100	M-200 M-210	M-300 M-311 M-320	M-400 M-421
А	1052 (41.4)	1305 (51.4)	1558 (61.3)	1811 (71.3)

## Volume and Weight

	M-100	M-200	M-210	M-300	M-311	M-320	M-400	M-421
Volume L (US gal)	27 (7.1)	47 (12.4)	47 (12.4)	68 (18)	68 (18)	68 (18)	88 (23.2)	88 (23.2)
Weight kg (lb)	39.6 (87.3)	45.7 (100.8)	55.5 (111.4)	51.8 (114.2)	61.4 (135.4)	56.7 (125.0)	58 (127.9)	67.6 (149.1)

## Standard Documentation7

- Declaration of Conformity for CE marking
- Certificate of Conformity to PED
- Material Traceability and Conformity Certificates
- · Certificate of surface finish
- Installation / Operating Manual (IOM)
- ATEX Certificate (if selected)

<sup>&</sup>lt;sup>6</sup> Indicated dimension is for DIN 11851 connection. Dimensions for clamp coupling connection are B: 407.2 (16.0), C: 278.6 (11.0) and D: 128.6 (5.1).

Additional documentation can be provided on request. Such documentation can include X-ray plans and reports, weld plan, welder qualification, and wall thickness protocol. The supply of any of these documents will require a special quotation.

# SUPRApak Series

# **SUPRApak M Series-WA Filter Housings Ordering Information**

This is a guide to the part numbering structure and possible options only. For availability of specific options, please contact Pall.

Part Number: SPM WA

## **Example Part Number: SPMWA400TW23LA**

Note: See bold reference codes in the tables.

#### Table 1

Code	Bowl Height and Configuration	Number of SUPRApak Modules
100	1-High Bowl	1
200	2-High Bowl	2
210	2-High Split Bowl	1 or 2
300	3-High Bowl	3
311	3-High Split Bowl	1, 2, or 3
320	3-High Split Bowl	1 or 3
400	4-High Bowl	4
421	4-High Split Bowl	1, 2, 3, or 4

#### Table 2

Code	Filtrate Vent Option	
TW	No Vent	
TV	With Vent (DN 6 Hose Tail)	

#### Table 3

Code	Inlet/Outlet Connection Type	
NW40	DN 40 DIN 11851	
23L	1.5" Clamp Coupling	

## Table 4

Code	ATEX Documentation	
A	ATEX (94/9/EC) Classification: Group II, Category 2, (Zones 1/21 and 2/22) Documentation	
N	No ATEX Documentation	

# **Optional Accessories**

Part No.	Description	Details
25590-0226 <sup>8</sup>	Hot Fluid Core	316L SS
25590-0226-01	Hot Fluid Core Extension Z1	316L SS
25590-0226-02	Hot Fluid Core Extension Z2	316L SS
ACS1018AS	Blind Cap	DN 25
ACS1019AS	Blind Cap	Clamp Coupling 1 inch
066001-010-02	Hook Spanner	DN 10-20
066001-025-02	Hook Spanner	DN 25-65
20040118-12	1-2 High Lifting Device	Supplied with Spacer
20040118-34	3-4 High Lifting Device	Supplied with Spacer

<sup>&</sup>lt;sup>8</sup> For hot fluid filtration (>40 °C/ >104 °F) select Hot Fluid Core for the top module in the stack and add Hot Fluid Core Extension Z1 (1-high section) and/or Hot Fluid Core Extension Z2 (2-high section) as required. A 1-high housing will only require the Hot Fluid Core.
